PROFILE

I am a passionate software programmer with a lot of interest in the new technologies. As a software developer, I would like to improve my self-awareness and develop my potential. I am prepared to learn more and to gain knowledge in the Software development field.

EMPLOYMENT HISTORY

Senior Software Developer, eBag

Dec 2024 — Present

Sofia

- Primarily focused on frontend projects across the platform
- Set up and maintain a new internal mobile app for delivery drivers
- Contributed to a large redesign spanning both frontend and backend

Senior Software Developer, MentorMate

Nov 2020 — Nov 2024

Sofia

- Delivered multiple projects across web platforms using React and TypeScript
- Worked with Adobe Experience Manager and modern frontend tooling (Webpack, Gulp, TailwindCSS)
- Mentored trainees in DevCamp on Node.js and React, accelerating onboarding

Software Developer, DevRealm

Mar 2019 — Nov 2020

Sofia

- Developed a production React web application with Redux/Thunk state management
- Implemented real time features using WebSockets
- Introduced Storybook for UI components and improved developer productivity
- Worked closely with the backend team, helping out when needed

Software Developer, AuxCode

Nov 2017 — Feb 2019

Sofia

- Implemented several Magento Commerce instances
- Built a MEAN stack core project running on Docker
- Contributed to an Angular 5 frontend with Ruby backend
- Worked in an Agile team using Jira; managed AWS deployments

Freelancer, Self-employed

2017 — Present

Sofia

- Website builder with reusable components and import/export of generated sites
- Multiple mobile applications for photo contests
- Book builder with templates and high quality PDF export (monorepo with React/Next.js)
- Collaborated with another developer on multiple backend projects

EDUCATION

Technical University of Sofia

Bachelor (in progress)

Oct 2018 — May 2024

Sofia

Professional Gymnasium of Computer Technologies and Systems, Pravetz

Secondary

Sep 2013 — May 2018
